

CONSTRUCTION UPDATE

County Road 56

September 3, 2009

Thank you for your patience while we make important improvements to increase safety, widen the roadway, and upgrade city utilities on County Road 56.

WHAT'S BEING DONE?

A 2.3-mile section of County Road 56 (Concord Street) is being reconstructed from Cooper Path to 65th Street. The work will include retaining walls, sidewalk, medians, ponds, and new curb and gutter. The underground utilities will be replaced, such as storm sewer, sanitary sewer, and water main.

WHEN WILL WORK TAKE PLACE?

County Road 56 between Cooper Path and Inver Grove Trail will close to traffic beginning on Tuesday, September 8. The segment between 66th Street and 68th Street/Dickman Trail will close to traffic the week of September 14. All County Road 56 traffic will be detoured for this work.

WHAT SHOULD I EXPECT?

County Road 56 will be reconstructed between Cooper Path and Inver Grove Trail beginning on Tuesday, September 8. Reconstruction of this segment will take approximately five weeks to complete. Traffic will be detoured during this time.

Construction on County Road 56 between Inver Grove Trail and 78th Street will continue for approximately one more week. This segment is scheduled to reopen to traffic the week of September 14. At that time, County Road 56 between 66th Street and 68th Street will close for reconstruction for approximately five weeks. The intersection with Dickman Trail will be reconstructed with this segment. Traffic in this area will also be detoured. Please see the enclosed maps for detour information.

Private utility companies will continue to relocate their facilities. Access to residences and businesses will remain open throughout construction.
