

CONSTRUCTION UPDATE

2010 Dakota County Overlays

June 8, 2010

Thank you for your patience while we make improvements to the surface of the roadway.

WHAT'S BEING DONE?

Each year Dakota County rehabilitates approximately 25 miles of pavement. The 2010 overlays include work on County Roads 30, 32, 46, 80, 83, 86, 88, 91, and Keokuk Avenue. A map is attached on the backside of this update showing the construction locations.

This year's contractor, McNamara Contracting, Inc., will be placing new asphalt on the driving lanes and in most cases the shoulders of the roads. The end product will be a better looking, longer lasting and smoother roadway.

WHEN WILL WORK TAKE PLACE?

Work on County Road 30 from County Road 43 to Truck Highway 3 is scheduled to begin Friday, June 11. Repairs will be made to existing storm sewer structures. This work will require lane closures and will take about one week to complete. The existing pavement is scheduled to be milled and paved the week of June 21. This should also take about one week to complete.

WHAT SHOULD I EXPECT?

The road will remain open to traffic and you will have access to your property throughout construction. While the contractor performs these operations, you may encounter a short delay. For the safety of both the residents and the workers, we ask for your patience.
