

CONSTRUCTION UPDATE

2010 Dakota County Overlays

June 29, 2010

Thank you for your patience while we make improvements to the surface of the roadway.

WHAT'S BEING DONE?

Each year Dakota County rehabilitates approximately 25 miles of pavement. The 2010 overlays include work on County Roads 30, 32, 46, 80, 83, 86, 88, 91, and Keokuk Avenue. A map is attached on the backside of this update showing the construction locations.

This year's contractor, McNamara Contracting, Inc., will be removing and replacing asphalt on the driving lanes and shoulders. The end product will be a better looking, longer lasting and smoother roadway.

In addition to new pavement, the work on County Road 32 will include the construction of six new right turn lanes and one left turn lane. Westbound right-turn lanes will be built at Cliff Drive, Scott Trail and Park Center Drive East. Eastbound right-turn lanes will be built at the Driver's Exam entrance and two commercial entrances. A second left turn lane will be constructed on County Road 32 at Rahnclyff Road.

WHEN WILL WORK TAKE PLACE?

Work on County Road 32 from west of Slater Road to I-35E began the week of June 7 with turn lane construction and signal work. Beginning on July 6, the existing pavement will be milled and paved. Much of this work will take place at night, but some work will continue during the daytime. This work will take approximately two weeks to complete.

WHAT SHOULD I EXPECT?

The road will remain open to traffic and you will have access to your property throughout construction. While the contractor performs these operations, you may encounter a short delay. For the safety of both the residents and the workers, we ask for your patience.
