

CONSTRUCTION UPDATE

2010 Dakota County Overlays

July 22, 2010

Thank you for your patience while we make improvements to the surface of the roadway.

WHAT'S BEING DONE?

Each year Dakota County rehabilitates approximately 25 miles of pavement. The 2010 overlays include work on County Roads 30, 32, 46, 80, 83, 86, 88, 91, and Keokuk Avenue. A map is attached on the backside of this update showing the construction locations.

This year's contractor, McNamara Contracting, Inc., will be placing new asphalt on the driving lanes and in most cases the shoulders of the roads. The end product will be a better looking, longer lasting and smoother roadway.

WHEN WILL WORK TAKE PLACE?

Work on County Road 91 from 210th Street to Trunk Highway 316 is scheduled to begin the week of July 26. The existing pavement will be milled and paved. This work will take about one week to complete.

WHAT SHOULD I EXPECT?

The road will remain open to traffic and you will have access to your property throughout construction. While the contractor performs these operations, you may encounter a short delay. For the safety of both the residents and the workers, we ask for your patience.
