

## LOCAL VENDORS OF CERTIFIED COMPOSTABLE PRODUCTS

Not all products that claim to be compostable meet commercial composting standards. Only products (e.g., bags, plates, cups, bowls, utensils, to-go boxes) that are **Certified Compostable** by the Biodegradable Products Institute (BPI) may be placed in organics bins for composting. In order to ensure products are BPI Certified Compostable, discuss your purchasing needs with your vendor and look for the BPI logo (shown to the right) on the product or packaging or verify the product is certified on the [BPI website](https://www.biodegradableproductsinstitute.com).
