B. Background and Nature of Project

1. Project Background: Dakota County's portfolio includes more than 60 buildings and structures totaling approximately 1.5 million square feet. This includes facilities ranging from libraries, office buildings and court facilities, to correctional, residential, park and maintenance facilities.

The Capital Projects Management team creates programs which are funded annually to upgrade, replace or repair key building infrastructure. These programs are informed by various long-term plans, reports, assessments and tools. The county maintains a data base solution called VFA, sold by the Gordian Group, that contains specific systems-based information for nearly all buildings. This data base tracks systems at the component level and uses general rules to forecast total life span. The forecasts and information in the data base is reliable, but not infallible. Further, real-life situations often require adjustments to total life span of systems or equipment. To be most useful and relevant, the information included in the county's data base must be examined more closely to form actual capital projects and programs for implementation.

2. Project Description: The county is asking a consultant specializing in electrical power systems to complete a comprehensive, county-wide review of electrical power systems in all county facilities. Specifically, the consultant will review existing conditions and information in our data base, to prepare a building-by-building, system-by-system chronology of potential work over the next ten years.

Existing conditions shall be physically reviewed through on-site verification. This review process will also help the consultant form a better opinion of actual site conditions. Information from the county's data base shall then be compared to existing conditions, to determine the validity of the information and forecasted life span. On rare occasions, a different or more current technical solution might be more prudent than a simple replacement in kind. These situations should be noted in the final study.

The consultant will work with a Core Team composed of building maintenance managers and capital projects managers to take the gathered information and package and prioritize it for work per year. This might include multiple power systems (main service gear and generators per se) in one building and/or the same system (generators) at several buildings. Systems may include but are not limited to main distribution and sub-distribution gear, generators and transfer gear, uninterruptable power systems, etc.). Lighting and low voltage systems are expressly not a part of this project.

The consultant shall complete cost estimating for the identified projects at a concept level. Cost estimates will be used to align yearly work packages or projects with annual available budgets. The county may engage its own independent cost estimator to provide a second estimate for comparison. The consultant will be responsible for reconciling the cost estimates if provided to align overall scopes and estimates.

The consultant will then organize and codify the findings in a comprehensive report. Portions of this report will be the basis for future design solicitations (Requests for Proposals) that can be used to execute discrete projects or work packages in the coming decade.

3. Project Budget: For this ten-year planning study, the County has allocated not more than \$95,000.

The project budgets for all electrical power systems work over the next five years is roughly \$12 million. Annual allocations will be roughly \$2.4 million on average each of the next five years. The second five years will be similar but adjusted for inflation.

4. Project Process or Special Consideration: The design team chosen for this overarching study will not be doing specific project designs. Rather, they will be validating and prioritizing the bulk of the work. By executing the study, this team will NOT be barred from competing in the future Request for Proposal solicitations to do the actual design on specific projects.

C. Scope of Services to be Provided

1. The consultant team shall provide all services needed to complete the reviews, data analysis and report preparation as described herein.
2. The consultant team will analyze data provided by the county's VFA data base, will conduct their own site investigations, and will work with a core team of county staff to create a prioritization of projects for completion over a ten-year span. See **Attachment P** for an example of the type of information included in the VFA software.
3. The consultant team will become familiar with **Attachment Q Dakota County High Performance Design and Construction Standards** to develop as a basis for understanding the county's preferred electrical power systems.
4. The county will make available to the selected consultant any applicable floor plans in PDF form and existing system drawings from the county archive in PDF, jpg or tif form.
5. The consultant team will be responsible for confirming all applicable Federal, State, and local codes and regulations as they apply to this effort.
6. All communication with the County will go through the County's Project Manager, unless approved otherwise in writing by the Project Manager.
7. The County will identify a Core Team, responsible for decision making and overall direction. Meetings or work sessions will be held with this Core Team as needed.
8. The consultant team will meet with county staff as often as needed to complete this effort. The county understands that virtual meetings can be efficient and sometimes required. However, in-person meetings should account for at least one third of all planned meetings. These meetings will likely be held at the Administration Center in Hastings, MN. A kickoff meeting and review meetings to coincide with major milestones or deliverables will be held with the Core Team and all associated consultant team members.

9. The consultant team shall provide draft meeting agenda for each Core Team Meeting to the County PM for approval two days prior to the meeting. All presentation materials shown at meetings must be pre-viewed by the County PM prior to each meeting. Provide meeting minutes for all meetings within five (5) days of the meeting.
10. At the start of efforts, the consultant team shall develop a schedule of all intended activities and tasks needed to complete this effort. This schedule shall include specific dates (not just estimated time durations). This schedule shall be shared with the County for review and confirmation, to assist with scheduling physical onsite reviews and coordination.
11. The consultant team shall conduct physical, in-person, on-site reviews of facilities and systems to adequately assess existing conditions. See **Attachment H Facility List** for a list of buildings.
12. The consultant team members responsible for conducting the on-site reviews of all facilities shall complete background checks with the County. Approved and authorized consultant team members will be issued card access badges and/or keys to access the facilities. It is not the County's intent to provide staff escorts to the consultant team for all on-site reviews. Escorts can be provided for high-security areas as needed only.
 - a) Additional time for the background check process shall be factored into the consultant team's proposed schedule. This process typically takes 4-6 weeks.
13. The consultant team shall work with the Core Team to prioritize system replacements or projects per year to align with the expected annual available budget.
14. The consultant team shall develop cost estimates for identified projects or packages of work. Cost estimates shall be in present-day dollars (2026). Any projects prioritized to be completed in future years shall include a separately identified 4% escalation factor for each year after 2026.
15. The consultant team shall develop a final report to convey findings and will develop a ten-year program that includes discrete projects and estimated project costs to guide future planning. These documents may include any combination of written summaries, lists, tables, images, or other information to adequately convey the findings or ideas.
 - a) Documents shall be digitally accessible. All content must comply with WCAG 2.1 AA accessibility guidelines.
 - b) Final documents to be provided to the County in both digital format (MS Word, MS Excel, etc.) and PDF formats.
 - c) The cost of providing the documents is to be included in the labor portion of your proposal and is not a reimbursable expense.
 - d) Refer to Section D Specific Deliverables for additional information and milestones.

The minimum monthly interest penalty payment for an unpaid balance of \$100 or more is \$10. For unpaid balances of less than \$100, the County shall pay the actual interest penalty due the Contractor.
- 3.5. Late Request for Payments. The County may refuse to pay invoices received or postmarked more than 90 calendar days after the date that the invoiced Services were performed.
- 3.6. Payment for Unauthorized Claims.
- A. Payment does not prevent the County from disputing the claim. Payment of a claim is not a waiver, admission, release, ratification, satisfaction, accord, or account stated by the County.
 - B. The County is not responsible for any interest, fee, or penalty if it withholds payment for failure to comply with any provision of this Contract or during the pendency of an audit or inspection.
 - C. If the County requires an audit or inspection, the County does not have to pay any invoices until the audit or inspection is complete. Upon completion of the audit or inspection, the County will pay the Contractor pursuant to the time period for payment after receipt of an invoice.
 - D. The County may offset any overpayment or disallowance of claim by reducing future payments.

4. COMPLIANCE WITH LAWS/STANDARDS

- 4.1. General. Contractor shall abide by all Federal, State or local laws, statutes, ordinances, rules, and regulations now in effect or hereafter adopted pertaining to this Contract or to the facilities, programs, and staff for which Contractor is responsible. This includes, but is not limited to, all Standard Assurances, which are attached and incorporated as **[Exhibit 4]**. Any violation of this section is a material breach of this Contract. No Notice of Default is required to terminate under this section.
- 4.2. Minnesota Law to Govern. The laws of Minnesota govern all matters related to this Contract, without giving effect to the principles of conflict of law. Any violation of this section is a material breach of this Contract. No Notice of Default is required to terminate under this section.
- 4.4. Diversity and Inclusion; Prohibited Acts. It is the policy of the County to respect culture and reduce bias in the workplace and service delivery. The County's commitment to inclusion, diversity, and equity requires that the Contractor uphold respectful regard for cultural differences and recognition of individual protected-class status as defined under law.

The Contractor, its managers, officers and employees shall abstain from discrimination, harassment and retaliatory actions in the performance of this Contract. If the County receives a report of non-compliance with this provision, it will share the report with Contractor, conduct an appropriate investigation as warranted by the nature of alleged behavior, and notify Contractor of the findings of the investigation and

any required remedial actions by the Contractor. The Contractor shall inform the County of compliance with any required remedial actions within the time period provided by the County. If the behavior persists, the County may terminate the Contract in accordance with section 12, Termination. The Contractor shall have policies that prohibit retaliation for reporting that is not in compliance with this provision.

5. INDEPENDENT CONTRACTOR STATUS

Contractor is an independent contractor. Nothing in this Contract is intended to create an employer and employee relationship between the County and the Contractor. Contractor is not entitled to receive any of the benefits received by County employees and is not eligible for workers' or unemployment compensation benefits. Contractor also acknowledges and agrees that no withholding or deduction for State or Federal income taxes, FICA, FUTA, or otherwise, will be made from the payments due Contractor, and that it is Contractor's sole obligation to comply with the applicable provisions of all State and Federal tax laws.

6. NOTICES

6.1. Each Notice must be signed by the Authorized Representative. Notices may be signed electronically. Unless otherwise stated in a specific section of this Contract, any notice or demand, (collectively, "Notice") must be in writing and provided to the Authorized Representative by at least one of the following:

- A. Personal delivery, which is deemed to have been provided upon receipt as indicated by the date on the signed affidavit; or

6.2. If the Authorized Representative rejects or otherwise refuses to accept the Notice, or if the Notice cannot be provided because of a change in contact information for which no Notice was provided, then the Notice is effective upon rejection, refusal, or inability to deliver.

7. INDEMNIFICATION

7.1. General. To the greatest extent allowed by law, in the performance of or failure to perform this Contract, Contractor shall indemnify, defend (in the case of third-party claims, with counsel satisfactory to County), and hold harmless the County, its officers, agents, and employees, from and against any actual or alleged loss, litigation cost (including, but not limited to, reasonable attorney fees and costs and expenses of defense), costs, settlement, judgment, demands, damage, liability, lien, debt, injury, harm, fees, fines, penalties, interest, expenditure, diminution in value, disbursement, action, claim, proceeding, or dispute of any sort (collectively "Losses"), whether or not involving a third party, which are attributable to Contractor's, or Contractor's agents', independent contractors', employees', or delegates', actual or alleged:

- A. Intentional, willful, or negligent acts or omissions; or
- B. Actions or omissions that give rise to strict liability; or

C. Negligent or intentional misrepresentation, breach of warranty, covenant, contract, or subcontract

whether or not well-founded in fact or in law, known or unknown, foreseen or unforeseen, fixed or contingent and howsoever originating or existing, and whether or not based upon statute, common law, or equity. This indemnity provision survives expiration or termination of this Contract.

The Contractor's duty to defend the County is not contingent upon a finding of liability or wrongdoing on the part of the Contractor. Rather, the Contractor's duty to defend the County arises whenever an allegation is made—whether in a formal lawsuit or otherwise—that the County is liable to a third party as a result of the conduct of the Contractor. The duty to defend includes, but is not limited to, the Contractor retaining and paying directly legal counsel for the County chosen solely and exclusively by the County in the County's sole discretion.

7.2. Limitations. The indemnification, defense, and hold harmless obligations of this section do not apply to the extent that liability is the direct or proximate result of the negligence or fault of the County or any third party for whom the Contractor is not legally liable. This limitation is not a waiver on the part of the County of any immunity or limits on liability under Minn. Stat. Ch. 466, or other applicable State or Federal law.

7.3. Notice. The parties shall promptly provide Notice in writing and in reasonable detail of:

A. Any demand, action, suit, or proceeding against the party providing Notice; or

B. Any event or fact that may give rise to indemnification under section 7.1 by Contractor.

7.4. Control of Defense and Settlement. Contractor shall promptly provide Notice to the County of any proposed settlement, and Contractor may not, without County's prior written consent (which the County will not unreasonably withhold, condition, or delay), settle such claim or consent to entry of any third-party judgment. Nothing in this section precludes Contractor from allowing County to undertake control of the defense.

8. INSURANCE

Contractor shall maintain policies of insurance as set forth in **[Exhibit 3]**, and pay all retentions and deductibles under such policies of insurance. Any violation of this section is a material breach of this Contract. This section survives expiration or termination of this Contract. No Notice of Default is required to terminate under this section.

9. SUBCONTRACTING

9.1. Subcontracting Generally Prohibited. Contractor shall not assign or delegate any interest, right, duty, or obligation related to this Contract without the County's prior written consent. The County may void any purported assignment, delegation, or subcontract in violation of this section.

9.2. Permitted Subcontracting. Contractor may subcontract with the subcontractors identified in Contractor's Proposal or as permitted by the County in writing, subject to the following:

A. Contractor shall be responsible for the performance of its subcontractors.

B. All subcontractors shall comply with the provisions of this Contract.

C. Contractor remains responsible for performing Services under and complying with this Contract, regardless of any subcontract.

9.3. Notice to County. Contractor shall provide Notice to the County of any complaint, demand, action, proceeding, filing, lien, suit, or claim that Contractor has not paid or failed to timely pay any subcontractor. Notice must be provided no later than 10 calendar days after the date on which the Contractor first receives the complaint, demand, action, proceeding, filing, lien, suit, or claim.

9.4. Payment of Subcontractors. This provision is required by Minn. Stat. § 471.425. Contractor shall pay the subcontractor within 10 calendar days after the date on which the Contractor receives payment from the County for undisputed Services performed by the subcontractor. Contractor agrees to pay interest of 1½ percent per month or any part of a month to the subcontractor on any undisputed amount not paid on time to the subcontractor. The minimum monthly interest penalty payment for an unpaid balance of \$100 or more is \$10. For unpaid balances of less than \$100, the Contractor shall pay the actual interest penalty due the subcontractor.

9.5. A violation of any part of this section is a material breach of contract.

10. FORCE MAJEURE

Neither party shall be liable to the other party for any loss or damage resulting from a delay or failure to perform due to unforeseeable acts or events outside the defaulting party's reasonable control, providing the defaulting party gives notice to the other party as soon as possible. Acts and events may include acts of God, acts of terrorism, war, fire, flood, epidemic, acts of civil or military authority, and natural disasters.

11. DEFAULT

11.1. Notice of Default. Unless otherwise stated in a specific section of this Contract, no event or circumstance constitutes a default giving rise to the right to terminate for cause unless and until a Notice of Default is provided to the defaulting party, specifying the particular event or circumstance, series of events or circumstances, or failure constituting the default and cure period, if any.

11.2. Cure Period. The party providing the Notice of Default has the option, but is not required, to give the other party an opportunity to cure the specified default. If an opportunity to cure is given, it must be specifically described in the Notice of Default, including any period in which to comply.

11.3. Withholding Payment. Notwithstanding any other provision of this Contract, the County may, after giving Notice of Default, withhold, without penalty or interest, any payment which becomes due after Notice of Default is provided until the specified default is excused or cured, or the Contract is terminated.

12. TERMINATION

12.1. Termination Without Cause. Either party may terminate this Contract without cause by providing 30 calendar days' Notice of Termination to the other party.

12.2. Termination for Cause or Material Breach. Either party may terminate this Contract for cause by providing 7 calendar days' Notice of Termination to the other party, unless a different procedure or effective date is stated within the specific section of this Contract under which the default occurs. In addition to other specifically stated provisions of this Contract or as otherwise stated in law, events or circumstances constituting default and giving rise to the right to terminate for cause, unless waived, include but are not limited to:

- A. Making material misrepresentations either in the attached exhibits or in any other material provision or condition relied upon in the making of this Contract;
- B. Failure to perform Services or provide payment within the time specified in this Contract;
- C. Failure to perform any other material provision of this Contract;
- D. Failure to diligently and timely perform Services so as to endanger performance of the provisions of this Contract;
- E. The voluntary or involuntary dissolution, insolvency, merger, sale, transfer, reorganization, acquisition or winding down of the Contractor's business.

- 12.3. Termination by County – Lack of Funding. The County may immediately terminate this Contract for lack of funding. A lack of funding occurs when funds appropriated for this Contract as of the Effective Date from a non-County source are unavailable or are not appropriated by the County Board. The County has sole discretion to determine if there is a lack of funding. The County is not obligated to pay for any Services that are performed after providing Notice of Termination for lack of funding. The County is not subject to any penalty or damages for termination due to lack of funding. No Notice of Default is required to terminate under this section.
- 12.4. Notice of Termination. The Notice of Termination must state the intent to terminate the Contract and specify the events or circumstances and relevant Contract provision warranting termination of the Contract and whether the termination is for cause.
- 12.5. Duties of Contractor upon Termination. Upon the County providing of the Notice of Termination, and except as otherwise stated, Contractor shall:

- 12.7. Effect of Termination for Cause or without Cause.
- A. Termination of this Contract does not discharge any liability, responsibility, or right of any party that arises from the performance of, or failure to adequately, perform the provisions of this Contract prior to the effective date of termination. Termination shall not discharge any obligation which, by its nature, would survive after the date of termination, including by way of illustration only and not limitation, the requirements set forth in **[Exhibit 4]** (Standard Assurances) and the indemnity provisions of section 7.
 - B. The County shall not be liable for any Services performed after Notice of Termination, except as stated above or as authorized by the County in writing.

13. CONTRACT RIGHTS AND REMEDIES

- 13.1. Rights Cumulative. All remedies under this Contract or by law are cumulative and may be exercised concurrently or separately. The exercise of any one remedy does not preclude exercise of any other remedies.

- 13.2. Waiver. Any waiver is only valid when reduced to writing, specifically identified as a waiver, and signed by the waiving party's Authorized Representative. 2. **DATA PRIVACY.** For purposes of this Contract, all data created, collected, received, stored, used, maintained, or disseminated by Contractor in the performance of this Contract are subject to the requirements of the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, ("MGDPA") and the Minnesota Rules implementing the MGDPA. Contractor must comply with the MGDPA as if it were a governmental entity. The remedies in Minn. Stat. § 13.08 apply to the Contractor. Contractor does not have a duty to provide access to public data to a data requestor if the public data are available from the County, except as required by the terms of this Contract. If Contractor is a subrecipient of federal grant funds under this Contract, it will comply with the federal requirements for the safeguarding of protected personally identifiable information ("Protected PII") as required in the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 CFR Part 200, and the County Protected PII procedures, which are available upon request. Additionally, Contractor must comply with any other applicable laws on data privacy. All subcontracts shall contain the same or similar data practices compliance requirements.

3. **RECORDS DISCLOSURE/RETENTION.** Contractor's bonds, records, documents, papers, accounting procedures and practices, and other evidences relevant to this Contract are subject to the examination, duplication, transcription, and audit by the County and either the Legislative or State Auditor, pursuant to Minn. Stat. § 16C.05, subd. 5. The Contractor agrees to maintain such evidences for a period of six (6) years from the date services or payment were last provided or made or longer if any audit in progress requires a longer retention period.

4. **WORKER HEALTH, SAFETY AND TRAINING.** Contractor shall be solely responsible for the health and safety of its employees in connection with the work performed under this Contract. Contractor shall make arrangements to ensure the health and safety of all subcontractors and other persons who may perform work in connection with this Contract. Contractor shall ensure all personnel of Contractor and subcontractors are properly trained and supervised and, when applicable, duly licensed or certified appropriate to the tasks engaged in under this Contract. Each Contractor shall comply with federal, state, and local occupational safety and health standards, regulations, and rules promulgated pursuant to the Occupational Health and Safety Act which are applicable to the work to be performed by Contractor.

5. **PROHIBITED TELECOMMUNICATIONS EQUIPMENT/SERVICES.** If Contractor is a subrecipient of federal grant funds under this Contract, Contractor certifies that, consistent with Section 889 of the John S. *“Principals” for the purposes of this certification means officers; directors; owners; partners; and persons having primary management or supervisory responsibilities within a business entity (e.g. general manager; plant manager; head of a subsidiary, division, or business segment and similar positions).

8. **PREVAILING WAGES.** Contractor shall pay wages to its employees at a rate not less than those established by the Minnesota Department of Labor & Industry for commercial construction projects. In accordance with Minn. Stat. § 471.345, subd. 7 and Dakota County Board Resolution No. 95-55.
