

Licensed Family Child Care
Legal Non-licensed Child Care
Background Study Data Collection Form

Please note that all of the following information (unless otherwise indicated) is required by the Bureau of Criminal Apprehension (BCA) or Federal Bureau of Investigations (FBI). * Indicates that the field is optional. If you choose to provide your social security number, your study can be transferable to other counties or child care programs without needing to be re-fingerprinted. A new study still needs to be initiated for other counties/providers. Studies for adults are good from 5 years. Studies for minors are good for five years or until the individual turns 18, whichever occurs first.

If you are not the license holder applying for the background study, please include the license holder's name, address, and license number below.

To ensure accurate processing of the components of NETStudy 2.0 that rely on name and date of birth for matching, it is important that you verify the identity of the subject of the background study. You are not required to view a physical ID card or a photocopy of it – you can verify identity using a household roster or another source.

For fingerprint-based studies, if the study subject’s name and date of birth on the identification card they bring to the fingerprint location does not *exactly* match the name and date of birth entered on this form and in NETStudy 2.0, the fingerprint technician will not process the fingerprint transaction. The study will need to be re-initiated with the correct information and the subject will need to go to the fingerprinting location again. A list of acceptable forms of ID may be found on the DHS public website.

Identification of the subject has been verified.
