RE: Client's Name & Date of Birth

This letter is to inform you that client's name has been enrolled in Dakota County's Asthma Program. The Dakota County Asthma Program is a free program for children who live in Dakota County who have been diagnosed with asthma. This family will receive education on environmental triggers and learn ways to improve their child's health.

In this program, a public health nurse will make up to three home visits and work with the family to reduce the child's symptoms. The family may also be eligible to receive equipment such as vacuum cleaners, air purifiers, and bedding encasements to reduce triggers in the home. If you have any questions, please feel free to contact me directly at the information below.

Sincerely,

Becca Friendshuh  
Public Health Nurse
