

### Authorization for Immunization of a Minor

A parent or legal guardian must consent for a child younger than 18 years of age for immunization provided by Dakota County Public Health unless they meet one of the following exceptions: 1. They are living separate from the parent/guardian, regardless of duration, and managing personal financial affairs; 2. They are receiving Hepatitis B vaccine; 3. Married or have borne a child; 4. Pregnant and need vaccines recommended during pregnancy.

Please complete this form if your child will be coming to an immunization clinic visit without a parent or legal guardian. The person authorized to accompany your child must be an adult 18 years of age or older.

This consent is valid for the specified time period with a maximum of one year from date signed. If you have questions about immunizations, contact the Disease Prevention and Control unit at 952-891-7999.
