

Licensed Well Contractors

The following is a partial list of contractors licensed to perform water well work in Minnesota. This list is provided for your convenience and includes only contractors that have constructed or sealed residential wells in Dakota County in recent years. You may wish to check your yellow pages or the Minnesota Department of Health at [Licensed Well and Boring Contractor Directory \(https://www.health.state.mn.us/communities/environment/water/wells/lwc/index.html\)](https://www.health.state.mn.us/communities/environment/water/wells/lwc/index.html). Dakota County does not recommend, endorse, nor guarantee the work of any contractors. Dakota County recommends getting more than one estimate for well seal grants.

County	Contractor	Telephone
Carver	Mineral Service Plus, LLC	320-238-0195
