

# CONSTRUCTION UPDATE

## County Road 42 at Highway 52, Rosemount

March 30, 2017

**Thank you for your patience while we make important improvements to increase safety and improve traffic flow.**

### WHAT'S BEING DONE?

The interchange at Highway 52 and County Road 42 in Rosemount will be reconstructed. As part of the reconstruction project, the Highway 52 bridges over County Road 42 will be replaced, and the interchange ramps will be reconstructed on similar alignments with dedicated turn lanes being added to off-ramps. The design includes extending the 4-lane divided section of County Road 42 to east of Conley Avenue. This project will improve safety and provide capacity for future traffic.

### WHEN WILL WORK TAKE PLACE?

Private utility companies have begun relocation of some of their facilities and tree removal as necessary is occurring throughout the project.

Widening the ramps and bypass construction on County Road 42 will begin on Monday, April 10. This work will take approximately three weeks to complete. Reconstruction of the bridges will begin in early May and will wrap up in early October. County Road 42 will be reconstructed one half at a time. That work will occur between early May and early to mid-October. All work on the project will be completed by mid to late November.

### WHAT SHOULD I EXPECT?

Ramp closures are scheduled to begin at 12:01 a.m.

- Southwest Ramp: April 10 – 16
- Southeast Ramp: April 17 – 23
- Northeast & Northwest Ramps: April 24 – 30

Detours for the ramp closures will be posted.

In early May, Highway 52 between the County Road 42 ramps will be closed to reconstruct the bridge. At that time, County Road 42 between the ramps will be closed for Highway 52 traffic to use the ramps as a bypass to continue through or turn right. County Road 42 traffic will be detoured.

Access to residences and businesses will remain open throughout construction; however, access may be limited to only one direction.
