

CONSTRUCTION UPDATE

County Road 50, Lakeville

June 22, 2017

Thank you for your patience while we make important improvements increase safety and improve traffic flow.

WHAT'S BEING DONE?

County Road 50 (Kenwood Trail) from County Road 60 (185th Street) to County Road 9 (Dodd Blvd) in Lakeville will be reconstructed to increase capacity and improve safety. This section of County Road 50 will be converted to a 4-lane section with raised median and turn lanes. Shared use paths will be constructed along both sides of County Road 50, and the traffic signal located at the County Road 50/Ipava Avenue intersection will be replaced.

WHEN WILL WORK TAKE PLACE?

Private utility companies started relocating their facilities and will continue throughout the project.

Stage 1A and 1B of construction is scheduled to begin Thursday, June 29 and will continue through late summer. Stage 1C is tentatively scheduled to begin in late August/early September. The majority of Stage 2 will be completed in 2018. Some Stage 2 work may occur this year outside the roadway to help private utility companies with their relocation work. A Construction Staging Plan is on the backside of this update.

WHAT SHOULD I EXPECT?

Tree removal as necessary will take place throughout the project limits. Grading, pipe work, concrete work, and paving will follow the staging plan.

Road closures will be required to complete much of the work. County Road 50 between Icenic Trail and County Road 9 will be closed to traffic through late summer beginning on Thursday, June 29. County Road 50 between County Road 60 and Icenic Trail will be open to local traffic only. Access to businesses and residences will remain open throughout construction. See attached Construction Staging Plan for segmental closure details.

Additional road and/or lane closure information will be available on the Dakota County web page as the project progresses.
