

CONSTRUCTION UPDATE

County Road 50 (202nd St), Lakeville

April 3, 2019

Thank you for your patience while we make important improvements to increase safety and improve traffic flow.

WHAT'S BEING DONE?

County Road 50 (202nd Street) from west of Holyoke Avenue to County Road 23 (Cedar Avenue) in Lakeville will be reconstructed as a divided two-lane roadway with turn lanes at all public street intersections, trails along both sides of the roadway, and a trail underpass of County Road 50 just west of Highview Avenue. A multilane roundabout is planned at the Holyoke Avenue and County Road 50 intersection and a traffic signal at the intersection of County Roads 23 and 50.

WHEN WILL WORK TAKE PLACE?

Private utility companies started relocating their facilities and will continue throughout the project.

Stage 1 construction from west of Holyoke Avenue to Highview Avenue will begin the week of April 8 and continues until early July. Stage 2 construction from Highview Avenue to County Road 23 will begin in mid-July and wrap up in November 2019.

WHAT SHOULD I EXPECT?

Tree removal as necessary will take place throughout the project limits beginning the week of April 8. Grading, pipe work, concrete work, and paving will follow for each stage of construction.

Road closures will be required to complete much of the work. County Road 50 between Iberia Trail and Highview Avenue will be closed to traffic through early July beginning on Monday, April 8. In addition, Holyoke Avenue will be closed at County Road 50. Access to residences and businesses will remain open; however, access may be from only one direction. The posted detour route for County Road 50 uses County Road 9 (Dodd Blvd), County Road 70 (215th Street), and County Road 23 (Cedar Avenue).

County Road 50 between Highview Avenue and County Road 23 (Cedar Avenue) will remain open to traffic until mid-July. Additional road closure information will be available on the Dakota County web page as the project progresses.
