

CONSTRUCTION UPDATE

County Road 8 (Wentworth Ave), West St Paul

April 18, 2019

Thank you for your patience while we make important improvements to increase safety and improve traffic flow.

WHAT'S BEING DONE?

Dakota County, in cooperation with the City of West St Paul, will be reconstructing Wentworth Ave (County Road 8) from Delaware Avenue (County Road 63) to Livingston Avenue in West St. Paul. The project will reconstruct Wentworth Avenue to a two-lane roadway with curb and gutter, wider shoulders, turn lanes at appropriate intersections, bicycle and pedestrian facilities, the construction of drainage improvements and minor improvements to watermain and sanitary sewer. The project will improve safety, traffic operations, and drainage along Wentworth Avenue.

WHEN WILL WORK TAKE PLACE?

Work will begin on April 29th with the removal of trees, utility relocations from Delaware Avenue to Livingston Avenue and the removal of the pavement surface from Humboldt Avenue to Bellows Avenue.

WHAT SHOULD I EXPECT?

Although the contractor will only be working on the Humboldt to Bellows segment to begin with, other work will be taking place along the corridor and the entire length from Delaware to Humboldt will be closed to thru traffic. See map on the back.

The intersections of Humboldt, Bellows and Charleton Avenues will be reconstructed one at a time while the other two remain open.

Only people living or visiting along Wentworth Avenue will be allowed into the construction site. Be prepared for trips to take extra time and detours will be necessary. The use of Marie Avenue or Butler Avenue is recommended.

WHAT IF I HAVE A SPRINKLER SYSTEM?

If you have a sprinkler system on your property and are along the project corridor, your sprinkler system may be impacted by construction activities such as replacement of or new curb and/or sidewalk/trail. If your irrigation system is in the Right of Way (along the edge of the road) please have it marked so the chance of damage is lessened. If you have questions or concerns, please contact Jeannine Briol at (952) 891-7926 prior to April 24 with your name, address of the affected property, and a telephone number that you may be reached.
