

# CONSTRUCTION UPDATE

## North Creek Regional Greenway, Apple Valley

February 3, 2016

Thank you for your patience while we make important improvements to the Dakota County trail system.

### WHAT'S BEING DONE?

A segment of the North Creek Regional Greenway will be constructed in 2016 between County Road 38 (McAndrews Road) and Johnny Cake Ridge Road in Apple Valley. This project will improve access between Lebanon Hills Regional Park and the Minnesota Zoo, as well as provide a safe crossing of County Road 38 over the pedestrian bridge. This one mile segment is part of the master plan for the North Creek Greenway to provide a connection between Lebanon Hills Regional Park and the Vermillion River in downtown Farmington traveling through Apple Valley, Lakeville, and Farmington.

### WHEN WILL WORK TAKE PLACE?

Some minor construction activity will occur over a few weeks beginning the week of Feb. 8. The majority of the construction work will not get underway until early to mid-April and will continue through October 2016.

### WHAT SHOULD I EXPECT?

Beginning the week of Feb. 8, trees will be removed as necessary along the new trail alignment. Following tree removal there will be a lull in construction activity.

Grading of the trail, constructing retaining walls, and construction of the pedestrian bridge will begin in April. In addition, some private utilities (phone, gas, etc.) will be relocating their facilities for the project. Concrete work, paving the trail, and landscaping will occur later in the construction season.
