

ATTENTION

Thompson & Oakdale
West St. Paul, MN
Driveway Closures for Residents

On Monday, July 31st, 2023 starting at 2:00 p.m., construction crews will be pouring the new concrete curb & gutter. You will not be able to access your driveway between Monday, 2:00 p.m. until Thursday, August 3rd.

Here is what to expect:

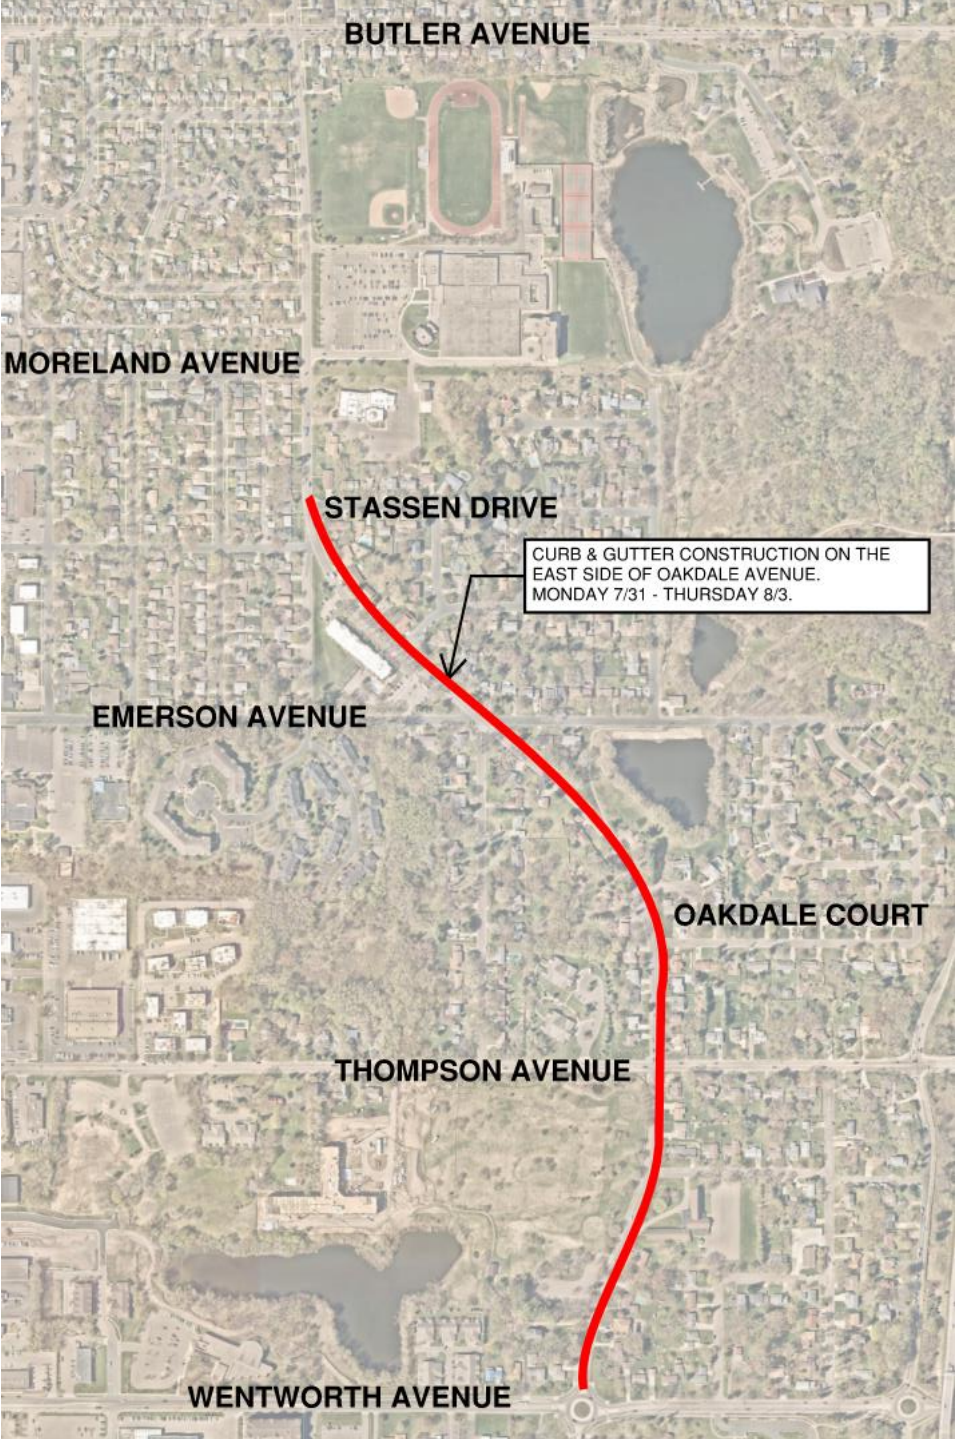

- Monday afternoon, the contractor will be setting string line between Wentworth and Oakdale Court.
- First thing Tuesday morning, they will be placing curb starting at Wentworth and working towards Stassen Drive.
- The Concrete Contractor expects to be onsite through Thursday to pour all the curb and gutter.
- During this time, you will be asked to park on the WEST side of Oakdale Ave.
- Once the curb is poured in front of your home, you may park in front of your home.
- On Thursday morning, the contractor will be placing a gravel ramp up and over this new curb to give you access to your driveway.
- The following week, Bituminous Roadways plans to pave the first lift of asphalt.
- Later this summer, the concrete contractor will be back to pour the driveway aprons, sidewalk, pedestrian crossings, and all other miscellaneous concrete items. At this time, you will receive another notice that you will not have access to your driveway for a few days.
- Please don't walk on the curb for the first 24 hours. If you need a handicap access, please call me and the contractor will build you an accessible ramp to get over the curb

The weather effects the schedule. In the event of a rain event, the schedule may be delayed.

We greatly appreciate your patience during this long construction project.

Sincerely,

Mike Kriesel
Construction Inspector
651-470-9192
