

MAILBOXES

Boxes must be placed to conform to state laws and highway regulations.

Suggested Installation of a Single Box

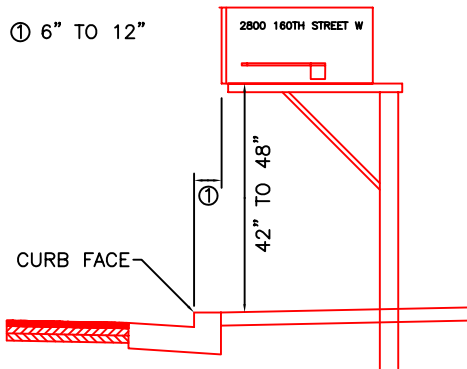

Suggested Installation Where Snow Removal is a Problem

Extend box beyond end of post. Attach board holding box to post with screws or double head nails, permitting easy removal if necessary to adjust box height.

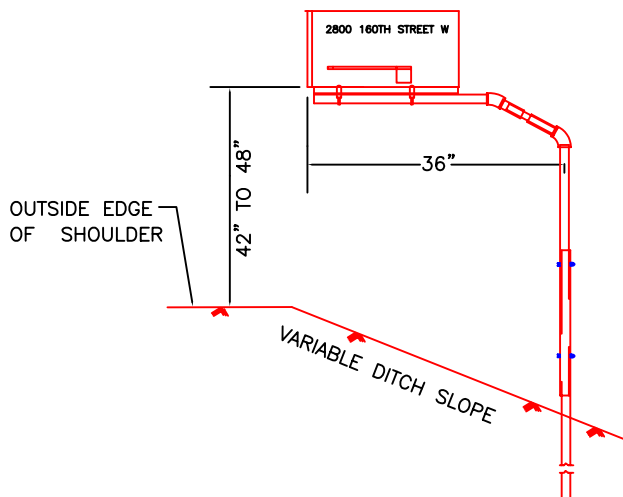

Location of Mailbox Post

For Rural Locations, the face of the box shall be set back 8" to 12" from the edge of the turnout or useable shoulder.

For Urban Locations, the face of the box shall be set back 6" to 12" from the face of the curb.

Swing or Pivot Mailbox

For specifications of this mailbox type click on the following link:

Safety Signs 952-469-6700 has mailbox posts with swing away.

Dakota County will replace mailboxes with a standard size mailbox only when the box was installed at the proper height and location and when actually hit by snowplowing equipment. The Dakota County Transportation Department also will replace mailboxes damaged by snow coming off the plow when the mailbox has been installed on a swing or pivot support according to drawings available from the Dakota County Transportation Department.

For questions please call 952.891.7900.
