

Welcome

80th Street

(CSAH 28)

ROADWAY & SAFETY IMPROVEMENTS

Public Input Meeting • March 28 • 4:30 – 6:30 pm

PROJECT OVERVIEW

- Converting the roadway to three-lanes from Babcock Trail to Bowman Avenue.
- Improving pedestrian crossings and accessibility throughout the corridor.
- Revising signals at Blaine Ave., Broderick Blvd., and Barnes Ave.

Timeline

4-LANE TO 3-LANE CONVERSION

- Current and projected traffic volumes do not support the need for four-lanes.
- Provides consistency with previous three-lane conversion of 80th Street east of Bowman Avenue.
- Three-lane roadways typically have lower crash and severity rates than multi-lane roads.
- Three-lane roadways allow for safer pedestrian crossings due to shorter crossing distances.

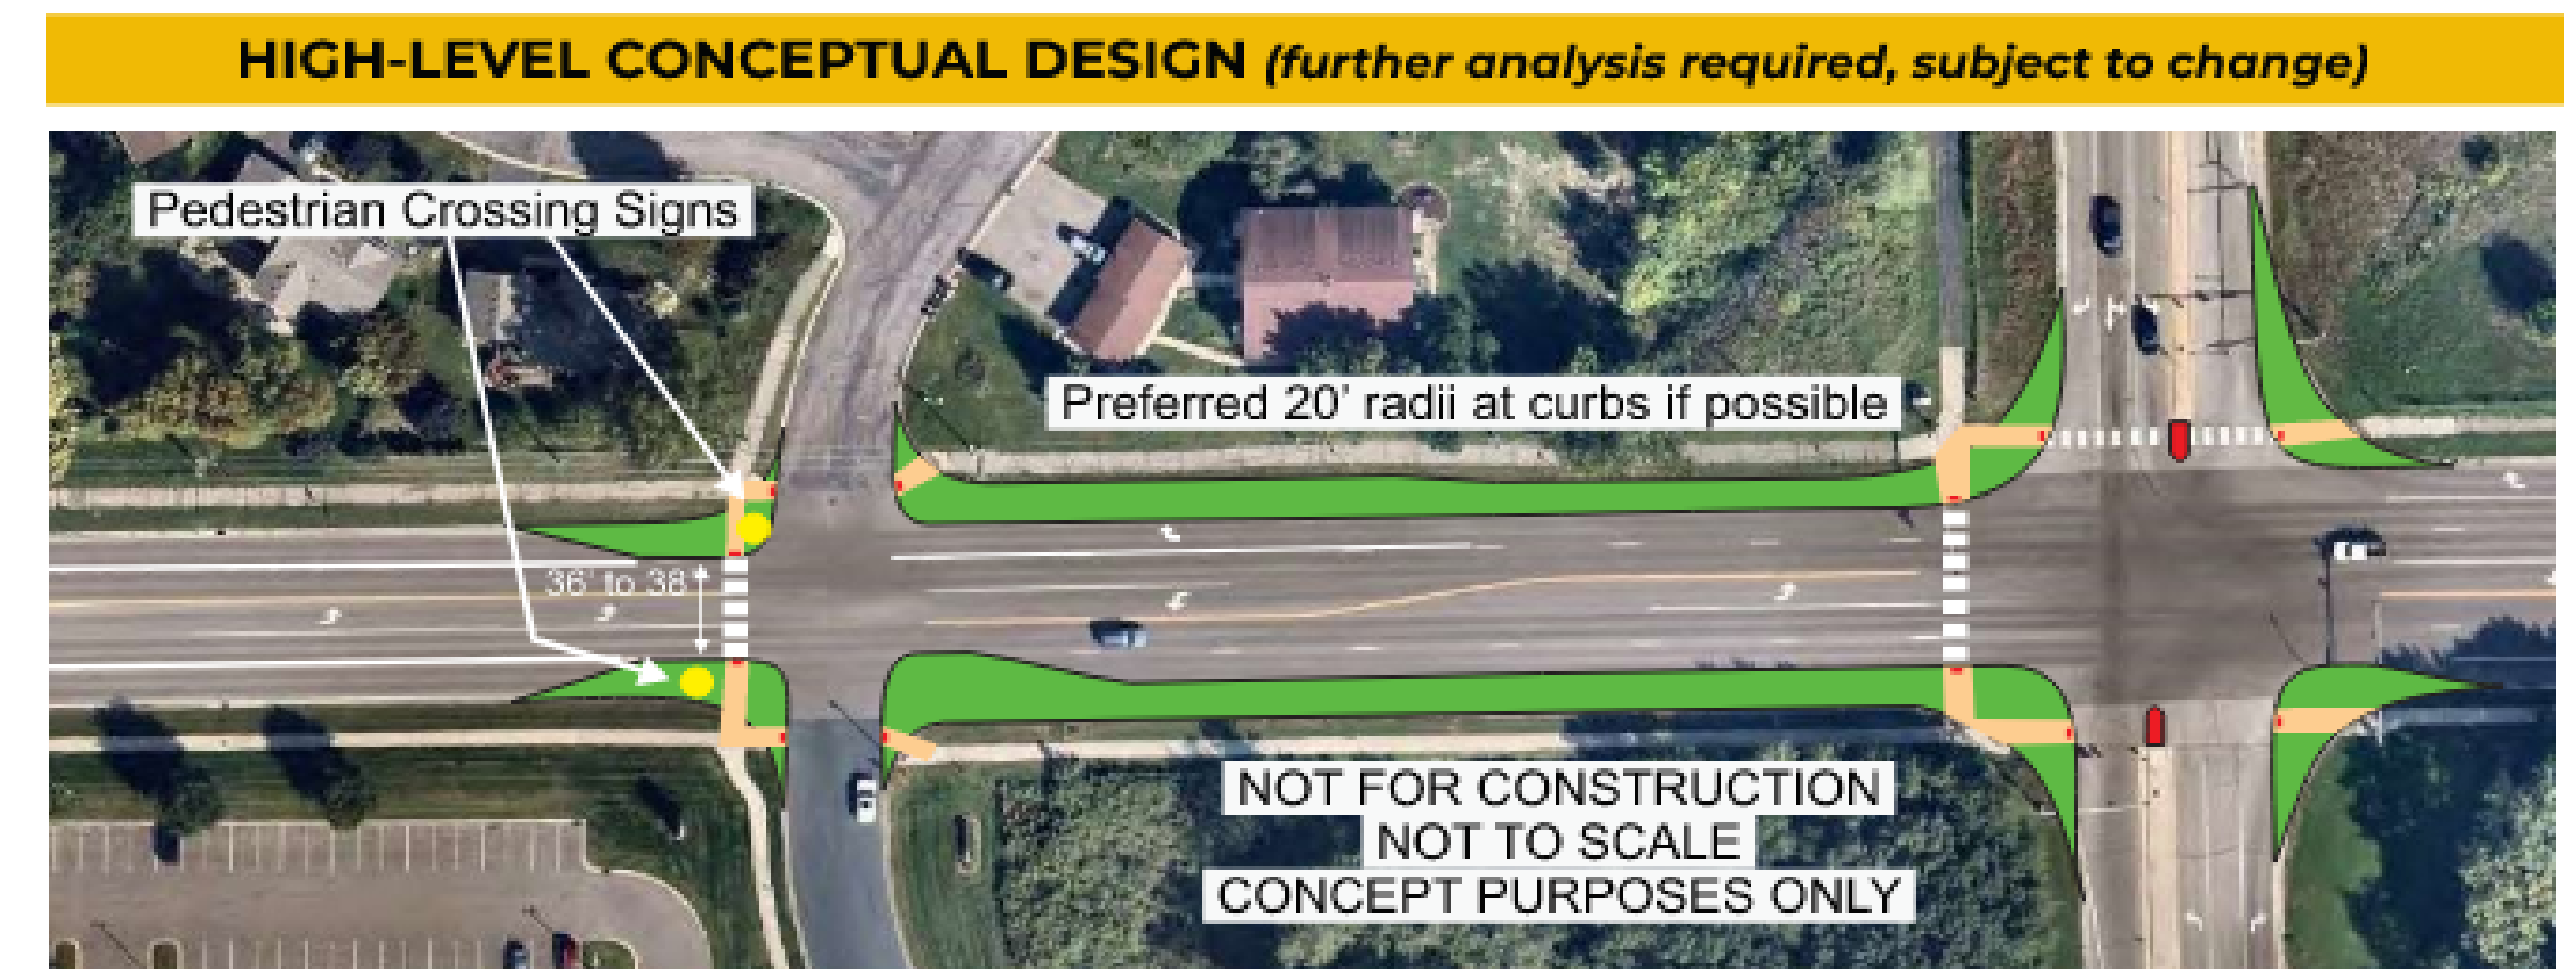

SAFE ROUTES TO SCHOOL & PEDESTRIAN IMPROVEMENTS

Pedestrian Crossing Safety Assessment

| Recommendations | How this project will address |
|---|--|
| Add 80th St & Barbara Avenue pedestrian crossing. Improvement location was selected due to crash history, number of lanes, and proximity to offices and public buildings. | Add marked pedestrian crossing, reduce crossing distance with curb modification, and add lighting. |
| Improve pedestrian movements. | Reduce the number of travel lanes and modify curb lines to reduce pedestrian crossing distances throughout the corridor. |

80TH ST (CSAH 28) & BARBARA AVENUE CONCEPT developed as part of study

Inver Grove Middle & Simley High Infrastructure Recommendations

| Recommendations | How this project will address |
|--|---|
| Install RRFB at 80th and Boyd and pedestrian-scale lighting; consider extending landing space and curb cut on northwestern corner of intersection to be able to walk/bike from Boyd to the 80th Street crossing. | Further improve pedestrian crossings. Provide pedestrian access along Boyd Avenue and improve pedestrian crossing directionality. |
| Reconstruct school driveway on 80th to improve pedestrian comfort and safety (ISD lead) | Narrow driveways and tighten curve radius to reduce pedestrian crossing distances. |
