What is the County Road 26 and County Road 63 Improvement Project?

Improvements include expanding County Roads 26 and 63 from 2 to 4-lanes, construction of a new alignment of County Road 63 (Argenta Trail), a new roundabout at County Roads 26 and 63, multi-use trails along both sides of each roadway, paved shoulders, stormwater infrastructure (i.e. curb and gutter) and a new underpass serving the Mendota-Lebanon Greenway.

Why is the project being done?

With anticipated growth and increased traffic demand in these areas, it’s crucial that the roads are safe and meet the infrastructure demands of future development. County Roads 63 and 26 currently lack turn lanes, have narrow shoulders and steep ditch slopes that aren’t suitable for high volume traffic, and the intersection of County Roads 63 and 26 have more crashes than the statewide average. Both roads also lack pedestrian and bicycle facilities, leaving significant gaps in the regional and local trail network. Come to the open house to find out more about the proposed improvements!

How can I participate?

An open house meeting has been scheduled for Wednesday, December 18, 2019 from 5 – 7 p.m. at the Veterans Memorial Community Center in Inver Grove Heights. At this meeting we will provide a status update on the project, solicit feedback on the final design alternative, and answer questions. Visit the project website to watch a video explaining the project need, what improvements are being proposed and share your input with the project team through an interactive map of the proposed layout.
