In-Person Event
AUGUST 23
4:30-6:00 p.m.

AROUND
30
ATTENDEES

- ▶ Online content included an introductory video, summary of the purpose and work to date, and detailed information about corridor issues and potential improvements. A range of potential options for improving the roadway were available for download.
- ▶ At the in-person event, participants were given the opportunity to meet with the project team and ask questions about the potential options presented.
- ▶ Participants, both online and in-person, provided comments related to speeding, safety, bicycle, and pedestrian needs and changes to intersection controls such as roundabouts.
