

Project Information

What is happening?

Dakota County is in the preliminary design phase for the reconstruction of County Road (CR) 78 (240th Street) to a paved 2-lane highway from Highway 3 to Blaine Avenue (County Road 79). The design is focused on enhancing safety while reconstructing the roadway for years of future use.

Why is the work needed?

This section of CR 78 serves township residences, farms and provides an important connection between Cedar Avenue and TH 52 and TH 50. The roadway is over 60 years old and will require increased maintenance effort until it is reconstructed. Improving the roadway to current safety standards will reduce the risk for crashes.

What will the project include?

The new roadway will be widened to include paved shoulders, flatter slopes and improved ditches. Alignment alternatives will be evaluated based on safety, mobility, farmland impacts, residential impacts, implications for township roads, and cost. The alternatives and evaluation will be available at the open house for stakeholders to review and comment on. These alternatives are also available at www.co.dakota.mn.us (Search "240th Street").

Open House

Monday, Dec. 17, 2018
(4:30–6:30 p.m.)
Castle Rock Town Hall
2537 240th Street West
Farmington, MN 55024

At the open house, you can:

- Learn about the project
- Meet members of the project team
- Provide comment and feedback on the project

More information available on the Project Website: www.DakotaCounty.us & search "240th Street"
All materials presented at the open house will be posted on the project website after the meeting.
