

Mendota-Lebanon Hills Greenway

PROJECT BACKGROUND:

The Mendota-Lebanon Hills Greenway travels 8.5 miles through Mendota Heights, Inver Grover Heights and Eagan. The greenway will link Lebanon Hills Regional Park to the River to River Greenway, which connects to downtown St. Paul. This project, which embraces nature and trail-based activities, will help create a regional destination. The Mendota-Lebanon Hills Greenway is in an area that is full of history and meaning, and its placement will enhance access to natural areas, future parks and cultural resources.

PROJECT OBJECTIVES:

This project will identify a preferred trail alignment and tunnel or bridge crossing of Highway 55 while:

- Improving the safety and accessibility of trail crossings
- Adding connections to local trails and sidewalks
- Improving and adding elements like landscaping and interpretive signage

SCHEDULE:

PUBLIC INPUT:

COFFEE AND CONVERSATIONS

Join our project team to learn about the proposed trail alignment in an open house format. Project staff will be available for questions.

Thursday, Oct. 13, 4-6 p.m.
Eagan YMCA, 550 Opperman Dr., Eagan, MN 55123
