

**COUNTY PROJECTS
31-115 AND 74-011**

County Road 31 and County Road 74 Study Project Overview

Dakota County and the City of Farmington are conducting a corridor study of:

- County Road 31 (Denmark Avenue) from County Road 50 to County Road 74
- County Road 74 (220th Street) from County Road 31 to Honeysuckle Lane

As development continues in Farmington, these corridors will carry increasing traffic volumes and continue to provide access to adjacent residential, recreational, and institutional land uses. The corridor study will develop a vision for these corridors that will balance the needs of all users.

STUDY GOALS

Recommend
pedestrian/bicycle
crossing locations
and improvements
(Denmark Ave)

Evaluate
intersection
control types

**Develop a preferred
design** for a new
Vermillion River
bridge (Denmark Ave)
including a grade separated
greenway trail connection

Review the corridors
for access, safety,
speed management,
and mobility improvement
opportunities

Develop a layout
to modernize the
corridors with
an urban section and non-
motorized facilities

Recommend
stormwater
management
improvements
