A. Needs Statement

1. Identify challenges in financial	assistance that	are prohibiting you	ı from properly	serving MFIP/DWP
families in your community.				

Clients reporting not receiving their mail (invoices, requests for information, review forms) which results in programs closing and/or lapse in benefits and high call volumes.

Lack of availability of low-income housing options.

Mental and physical health concerns of our customers. Applying for SSA benefits is challenging and time consuming to that many of our customers do not take advantage of this possible resource.

Challenges related to the end of COVID waivers. Increased volume of work and many changes to policies.

2. *Identify challenges in employment services that are prohibiting you from properly serving MFIP/DWP families in your community.

There is a significant amount of paperwork which takes away from counseling and meeting with the client to address their specific needs and barriers.

The other issues include: need to focus more on career pathways, not just simply getting a job; limited public transportation.

4. What strengths and resources do you have available to address the needs of your participants?

Please check all the resources available to participants in your service area and check whether the resource is available within MFIP financial or employment services "in-house" or from a partner organization (County/Tribal Nation resources with developed connections to MFIP), and/or an external community resource or both. If you lack the resources in your service area, check the Resource Gaps column. Add any "other" resources that you consider necessary.

6. Employment Services Provider(s) Information

MN Statute 256J.50, Subdivision 8: Each county, or group of counties working cooperatively, must make available to participants the choice of at least two employment and training service providers as defined under MN Statute 256J.49, Subdivision 4, except in counties contracting with workforce centers that use multiple employment and training services or that offer multiple services options under a collaborative effort and can document that participants have choice among employment and training services designed to meet specialized needs.

List your current employment services provider(s) and check the respective box to indicate which population served. If a Workforce Center is the only employment services provider, list the multiple employment and training services among which participants can choose. F. Measures

Performance Measures

Performance-based funding is determined by a service area's annualized Self-Support Index value. Review the information and report links in this section to see the effect of performance on funding and reporting, based on Statute 256J.626, subdivision 7.

Each year a bonus to a service area's Consolidated Fund allocation will be based on its performance on the Self-Support Index in the previous April to March year.

The three-year Self-Support Index (S-SI): This measure starts with all adults receiving MFIP or DWP cash assistance in a quarter and tracks what percentage of them, three years later, are no longer receiving family cash assistance or are working an average of 30 hours a week if still receiving cash assistance. Those who left MFIP after reaching 60 counted months and those who left due to 100 percent sanction are only counted as a success if they worked an average of 30 hours per week in their last month of eligibility or if they began receiving Supplemental Security Income (SSI) after family cash assistance ended. To provide fair comparisons across service areas, DHS calculates a "Range of Expected Performance" for the S-SI that is based on local caseload characteristics and economic conditions. The service area's Self-Support Index value is whether the service area was above, within, or below its expected Range.

The S-SI and Range are annualized for the four quarters in the April through March year ending in the reporting year before the funding year. See the annualized report on the MFIP Reports page on the DHS website for 2023: https://edocs.dhs.state.mn.us/lfserver/Public/DHS-4651J-ENG. A service area with an annualized S-SI "above" its customized Range of Expected Performance for 2023 will receive a 2.5 percent bonus added to its Consolidated Fund allocation for calendar year 2024.

If your service area performed "above" or "within," you can go to Section G.

If your service area performed "below" for two consecutive years, you will have to negotiate a multi-year improvement plan with DHS. If no improvement is shown by the end of the multi-year plan, the next year's allocation must be decreased by 2.5 percent, to remain in effect until the service area performs within or above its Range of Expected Performance.

F. Measures (continued)

Racial/Ethnic Disparities

A racial/ethnic disparity is defined as a one-year Self Support Index that is five or more percentage points lower for a non-white racial/ethnic group than for the white group of MFIP/DWP-eligible adults in the county or consortium. The report "Annualized MFIP Performance Measures by Racial/Ethnic or Immigrant Group and by County, County Consortium, and Tribal Provider" is now available at https://public.tableau.com/app/profile/tyler.borgmann/viz/AnnualizedS-SISuccessRatebyRacialEthnicorImmigrantGroup/SSISuccessRateDashboard-intro

To view your agency's measurement, click on the "S-SI Success Rate by Agency" button. This will bring you to the statewide data for 2022. From the first drop down you can select your county, county consortium or Tribal Nation. If you note any groups that are below the line (indicated by a green bar) your county, county consortium or Tribal Nation will answer the next question below:

What strategies and action steps for each of the groups below the disparities reference line do you plan to implement for the coming biennium to reduce these disparities?

H. Administrative Cap Waiver

Minnesota Family Investment Program (MFIP) allows counties to request a waiver of the MFIP administrative cap (currently at 7.5%) for providing supported employment, uncompensated work, or a community work experience program for a major segment of the county's MFIP population. Counties that are operating such a program may request up to 15% administrative costs per MN Statute 256J.626, Subdivision 2.

If your County/Tribal Nation is interested in applying for the waiver for the coming biennium, please complete the following four questions.

I. Provider Choice

MFIP provisions require counties to provide a choice of at least two employment service providers available to participants unless a workforce center is being utilized (MN Statute 256J.50, Subdivision 8). Counties may request an exception if meeting this requirement results in a financial hardship (MN Statute 256J.50, Subdivision 9).

Does your County/Tribal Nation:

- Have at least two employment and training services providers. Go to Section J.
- Have a CareerForce center that provides multiple employment and training services, offers multiple services options under a collaborative effort and can document that participants have choice among employment and training services designed to meet specialized needs. Go to Section J.
- Intend to submit a financial hardship request.

A financial hardship is defined as a county's inability to provide the minimum level of service for all programs if a disproportionate amount of the MFIP consolidated fund must be used to cover the costs of purchasing employment services from two providers or the cost of contracting with a workforce center.

To request approval of a financial hardship exception from the choice of provider requirement, please provide the following information.
