Introduction: Right to Access Public Data

The Minnesota Government Data Practices Act, Minnesota Statutes chapter 13, (“MGDPA”) presumes that all government data are public unless a state or federal law says the data are not public. Government data is a term that means all recorded information a government entity has, regardless of its physical form, storage media, or conditions of use. This includes data recorded on paper, electronically (e.g., emails), DVDs, photographs, etc.

The MGDPA also requires Dakota County to keep all government data in a way that makes it easy for you, as a member of the public, to access public data. You have the right to look at (inspect), free of charge, public data that we keep. Dakota County is required to respond to requests for public data within a reasonable time but may need to review whether data contains information classified as not public. You also have the right to get copies of public data. The MGDPA allows Dakota County to charge for copies. You have the right to look at data, free of charge, before deciding to request copies.

How to Make a Data Request

You must make a written request to look at data or request copies of data that Dakota County keeps.

Data Maintained by the Sheriff’s Office: you may make your request by sending an email to dcjailadmin@co.dakota.mn.us for requests related to jail and detention services, and DCSORrecords@co.dakota.mn.us for all other requests, or by mail to the Sheriff’s Responsible Authority listed under Dakota County Contacts.

Data Maintained by the County Attorney’s Office: you may make your request by sending an email to attorney@co.dakota.mn.us or by mail to the County Attorney’s Responsible Authority listed under Dakota County Contacts.

All other Data: You may make your request for data by sending an email to data.practices@co.dakota.mn.us or by mail to the County Data Practices Compliance Official (DPCO) listed under Dakota County Contacts.

For all data requests, you may also make your request for data by filling out the data request form titled “Data Request Form – Members of the Public”. If you choose not to use the data request form, your written request should include:

- that you, as a member of the public, are making a request for data under the Minnesota Government Data Practices Act, Minnesota Statutes, Chapter 13;
- whether you would like to look at the data, get copies of the data, or both; and
- a clear description of the data you would like to inspect or have copied (be as specific as possible including subject matter, dates, etc.).

Dakota County cannot require you to identify yourself or explain the reason for your data request. However, depending on how you want Dakota County to process your public data request (for example, if you want us to mail you copies of data), Dakota County may need some information about you. In addition, please keep in mind that if Dakota County does not understand your request and has no way to contact you, Dakota County will not be able to begin processing your request.

NOTE: Names of persons making a public data request and the nature of the request are public.

How Dakota County Responds to a Data Request

Upon receiving your request, Dakota County will work to process it.

- If Dakota County does not have the data, we will notify you in writing.
- If Dakota County has the data, but the data are not public, we will notify you in writing and, upon your request, state in writing which specific law says the data are not public.
 - If Dakota County has the data, and the data are public, we will respond to your request within a reasonable amount of time by doing one of the following: arrange a date, time, and place for you to inspect the data free of charge if your request is to look at the data (inspection must occur during normal business hours and at a time when staff are available); or
 - provide you with copies of the data as soon as reasonably possible. You may choose to pick up your copies, or we will deliver them to you. If you want us to send you the copies, you will need to provide us with a mailing or email address. The County will choose an appropriate medium for sending electronic data, such as by email, filesharing or DVD/CD, depending upon the nature and size of the request.

In certain scenarios depending upon the size, scope and nature of your request, the County may provide you with data in multiple batches. You may inform the County if you prefer that the County prioritizes certain data when processing your request.

Information about copy charges is listed under Copy Costs – Members of the Public. Dakota County may arrange for you to pre-pay for the copies.

If you do not understand some of the data (e.g., technical terminology, abbreviations, or acronyms), please let us know. We will give you an explanation if you ask.

The MGDPA does not require Dakota County to create or collect new data in response to a data request if we do not already have the data, or to provide data in a specific form or arrangement if we do not keep the data in that form or arrangement (for example, if the data you request are on paper only, Dakota County is not required to create electronic documents to respond to your request.) If Dakota County agrees to create data in response to your request, we will work with you on the details of your request, including cost and response time.

Dakota County may respond to your request for data by asking questions or requesting additional information from you to better process your request.

If you do not respond to a question, request for clarification or other communication about your request, we may consider your request abandoned and therefore close your request after ten business days pass without a response.

The MGDPA does not require Dakota County to answer questions that are not requests for data.

Requests for Summary Data

Summary data are statistical records or reports derived from data on individuals, but in which individuals are not identified, and from which neither their identities nor any other characteristic that could uniquely identify an individual is ascertainable. The preparation of summary data is not a means to gain access to private or confidential data. Dakota County will provide summary data if you make your request in writing and pre-pay for the cost of preparing the data. We will notify you in writing if we determine that your access would compromise the private or confidential data. Upon receiving your written request for summary data – you may use the data request form titled “Data Request Form – Members of the Public” – Dakota County will respond with general details within ten (10) business days.¹

Copy Costs – Members of the Public

Dakota County charges members of the public for copies of government data. These charges are authorized under Minn. Stat. § 13.03, Subd. 3(c).

You must pre-pay for the copies before we will give them to you.

For 100 or Fewer Paper Copies – 25 cents per page

100 or fewer pages of black and white, letter or legal size paper copies cost 25¢ for a one-sided copy, or 50¢ for a two-sided copy.

Most Other Types of Copies – Actual cost

The charge for most other types of copies, when a charge is not set by statute or rule, is the actual cost of searching for and retrieving the data and making the copies or electronically transmitting the data (e.g., sending the data by email).

In determining the actual cost of making copies, we are permitted to factor in employee time, the cost of the materials onto which we are copying the data (e.g., paper, CD, DVD, etc.), and mailing costs, if any. If your request is for copies of data that we cannot reproduce ourselves, Dakota County will charge you the actual cost we must pay an outside vendor for this service.

Data Request Form – Members of the Public

Date of request: _____

I am requesting access to data in the following way:

Inspection* Copies** Both inspection and copies

*Inspection is free and may be done during normal business hours.

**There may be a cost for copies of data. Dakota County may require that you pre-pay for copies.

These are the data I am requesting:

Describe the data you are requesting. Be as specific as possible (i.e., dates, types, names, projects, etc.).

Contact Information

Name: _____

Mailing Address: _____

Phone number: _____ Email address: _____

You are not legally required to provide any of the above contact information; however, if you want us to mail/email you copies of data, we will need your contact information. In addition, providing contact information may help us process your request. If we do not understand your request and need to get clarification from you, we will not be able to begin processing your request until you contact us.
